

How to Enter Banking Information on the Employee Experience Portal or Mobile App

My Info

The **My Info** [Image 4-3] includes additional information for you to update. Under this section you can update your profile, add family details, updated your addresses, and banking information. Please note you can also access your Profile (referenced under 4-1 and 4-2 in this section as well by clicking on your name.

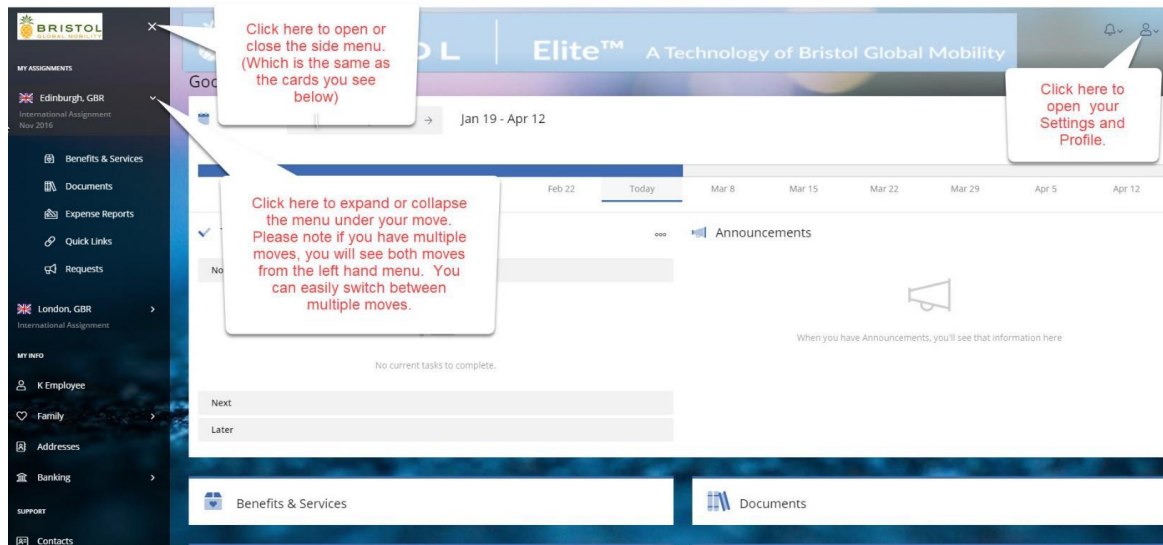

Image 1

My Info screen has four tabs [Image 2] by default – **Employee Information**, **Family**, **Addresses**, and **Banking**. Some of the tabs have additional sub-sections in which the employee can enter information. These tabs have a downward pointing arrow to indicate that there are additional options within the tab. Most of these sections are self-explanatory, but please request the long version of the guide if you want more detailed instructions. Below we will show the Banking screen since that is most important.

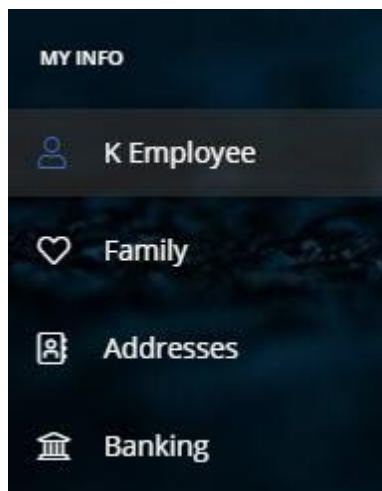

Image 2

Banking

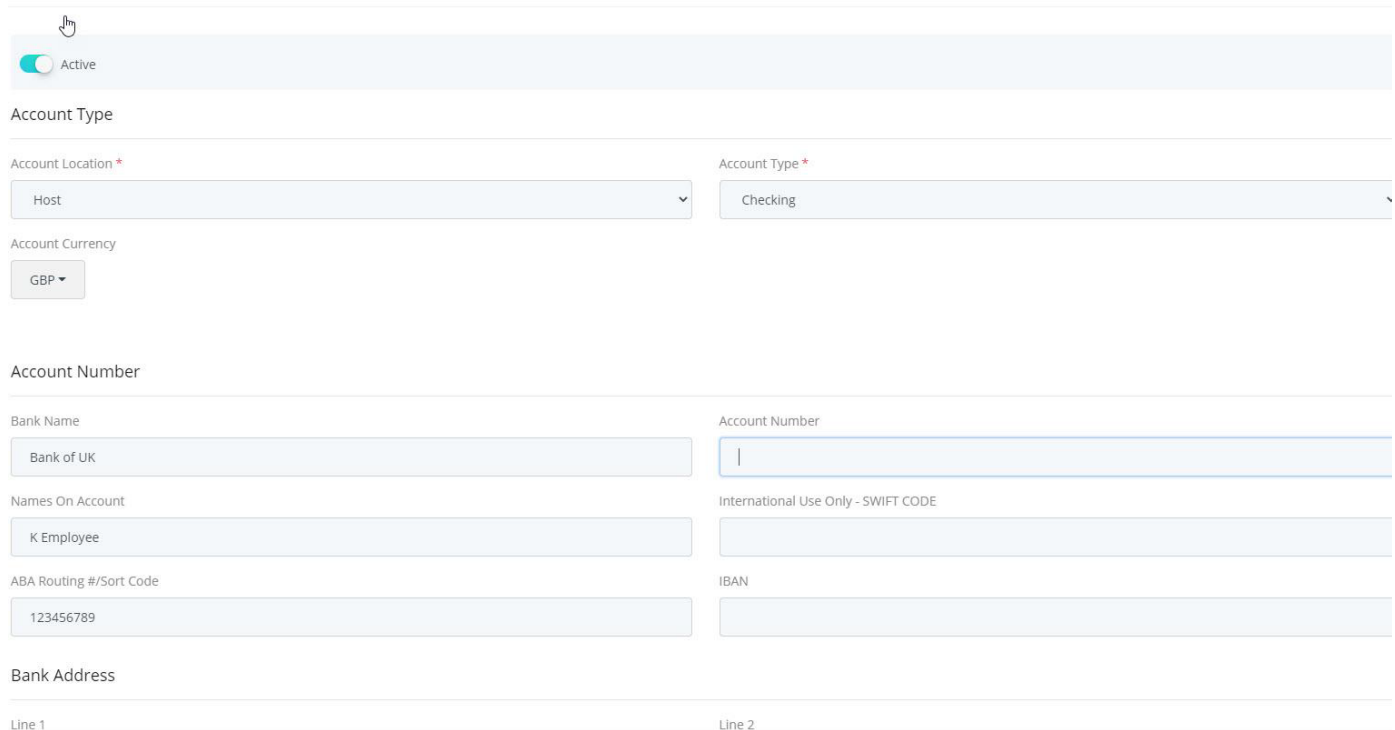

IMPORTANT – Banking must be entered via the portal **BEFORE** any expenses can be reimbursed to the relocating employee. The **Banking** tab [Image 3-3] has multiple sub-sections from which the employee can select. The following menu items display:

Identifies a previously-entered bank account.

+ Add Bank Account allows new bank accounts to be added for the employee.

When the employee clicks on the previously created bank or on + to create a new bank, a screen [Image 3] displays details pertaining to the selected bank account. Creating a new Bank Account uses the country data for that move, to support easier input.

The screenshot shows a web form for adding a bank account. At the top, there is a toggle switch labeled 'Active' which is turned on. Below this is the 'Account Type' section, which includes two dropdown menus: 'Account Location' (set to 'Host') and 'Account Type' (set to 'Checking'). Underneath is the 'Account Currency' dropdown, set to 'GBP'. The 'Account Number' section follows, with a 'Bank Name' dropdown set to 'Bank of UK' and an 'Account Number' text input field containing a single vertical bar. Below these are four more input fields: 'Names On Account' (set to 'K Employee'), 'International Use Only - SWIFT CODE', 'ABA Routing #/Sort Code' (set to '123456789'), and 'IBAN'. At the bottom is the 'Bank Address' section with two lines of text input, labeled 'Line 1' and 'Line 2'.

Image 3

When the employee clicks + **Add Bank Account**, the **New Bank Account** screen [Image 3] displays with the following fields:

ACCOUNT TYPE

- **Account Location (required)** – The location at which the account is established.
- **Account Type (required)** – Financial type of the account.
- **Account Currency** – Base currency used for account.
- **Bank Name** – Name of financial establishment that holds the account.

ACCOUNT NUMBER

- **Account Number** – The number associated with the account.
- **Names on Account** – The individuals that have account access.
- **International Use Only – SWIFT CODE** – The unique code that identifies the bank and the bank's country (Institution # for Canadian Bank)
- **ABA Routing #/Sort Code** – The unique code that identifies banks within the United States.
- **IBAN** – The unique number that identifies the bank across multiple borders.
 - *IBANs will be validated using the IBAN's checksum*
 - *IBAN, SWIFT/BIC, and Routing numbers support encryption. They will also validate the format of the code to ensure the proper characters are entered.*
- **Canada Use Only - Transit #**

BANK ADDRESS: (with the exception of Country, these fields are generally not required)

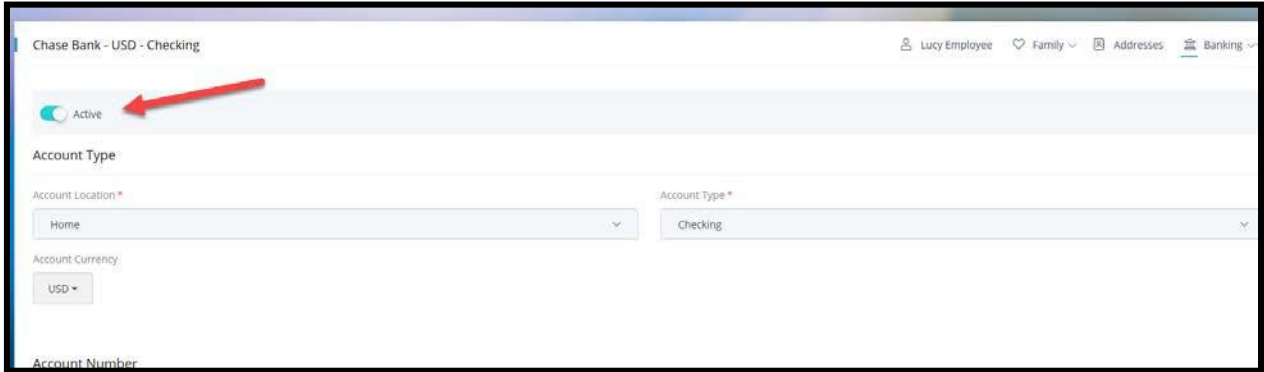

- **Line 1** – First line of the bank's address.
- **Line 2** – Second line of the banks address.
- **Line 3** – Third line of the banks address.
- **Country (required)** – The bank's address country.
- **State/Province** – The bank's address state or province (if applicable).
- **City** – The bank's address city.
- **Postal Code** – The bank's postal code.

BANK CONTACT (Generally not required or needed)

- **Contact Name** – Person at the bank that can be contacted about the account.
- **Contact Email** – Bank contact's email address.
- **Contact Phone** – Bank contact's phone number.
- **Contact Fax** – Bank contact's fax number.

Inactivating a Bank Account

Bank accounts can be activated and inactivated by employee users. **[Image 4]** Bank accounts can be sorted by active and inactive status.

The screenshot displays a web interface for managing a bank account. At the top, the title is "Chase Bank - USD - Checking". In the top right corner, there are navigation links: "Lucy Employee", "Family", "Addresses", and "Banking". Below the title bar, there is a light blue horizontal bar containing a toggle switch labeled "Active". A red arrow points to this toggle switch. Below this bar, the "Account Type" section is visible, which includes two dropdown menus: "Account Location" (set to "Home") and "Account Type" (set to "Checking"). Below these, there is a "Account Currency" dropdown set to "USD". At the bottom, the "Account Number" field is partially visible.
