IT Onboarding and Laptop FAQs

Updated: November 7, 2025

Below you'll find answers to common questions regarding the *Stripe IT Onboarding* task in Workday and IT onboarding at Stripe.

Please read this FAQ thoroughly before emailing IT Onboarding.

If you do send us an email, please include your region (AMER, EMEA, APAC) in the subject line.

After reviewing this FAQ, please complete the **Stripe IT Onboarding** task in your Workday inbox.

Note: New grad hires and remote interns, *please wait to complete this task until closer to your start date!* We recommend doing this task no more than 2 months before you start at Stripe.

- For non-IT onboarding information, please visit [Getting Started at Stripe](#).
- **IT DOES NOT ADMINISTER WORKDAY.** For questions regarding Workday access itself (e.g. login) or any other tasks within Workday, please contact peoplesupport@stripe.com.

General:

Re-hires (Returning Stripes, Returning Interns, New Grads who were former interns)

Please note that you will not be asked to select a username. You will be onboarded with the same username you had before.

Note: if you are a re-hire but are asked to choose a username, please email peoplesupport@stripe.com ASAP (and CC your recruiter) to have this rectified; let them know you need to be hired into Workday as a re-hire.

If you have changed your name and it no longer matches your previous username, please [send us an email](#).

I submitted the IT Preferences form. Can I still change my username?

Once you have selected and submitted a username preference, this cannot be changed as several automated processes will kick off.

Please take note of the username policy below. You will be asked to acknowledge this policy when completing the IT Onboarding task.

Your username will act as your contact address for Stripe email, Slack, and Github. At Stripe, it's common to refer to people simply as their username in writing and live in conversation. We believe your username is an important part of your identity at work, which is why we let you choose!

That said, this is still a work alias and we need to keep it professional. You are responsible for creating your username in line with the following rules:

- Must be somehow related to your legal name, preferred name, or nickname.
- Cannot contain any reference to a cybersecurity threat such as: spoof, pwn, hack, etc.
- Cannot make reference to common business functions such as security, finance, info, data, etc.
- Cannot be something that could be considered remotely offensive, lewd, derogatory, explicit, or purposely misleading.
- May not contain numbers, emojis or special characters.
- Must be between 2 and 21 characters.
- Letters must be lower case.
- Examples of good usernames: jms, jsmith, josmith, joanne.

If you select an inappropriate, offensive, or unprofessional username, your manager or a fellow Stripe may report it or request that you file for a new username. Keep in mind that changing usernames is cumbersome, costly, and disruptive both to your work and to Stripe.

What laptops are available?

You will receive an Apple MacBook. Specific models and sizes are provisioned based on available inventory at your assigned office location or region, as well as your job profile. While we will do our best to accommodate your screen size preference*, we cannot guarantee availability.

Please note that Windows machines are not supported at this time.

***Based on your role, you may not be asked to select a size.**

Interns will not be asked to select a size.

When/how will I receive my laptop?

You will receive your laptop in the office on your first day during Stripe 101 Live.

Can my laptop be shipped to me?

Please reach out to peoplesupport@stripe.com for exceptions to Stripe 101 Live.

Will I receive a monitor or other peripherals?

If you are a Remote Stripe, please purchase accessories using your Remote Worker Stipend.

For office-based Stripes, all desks in offices are equipped with a monitor, mouse, and keyboard. We do not provide peripherals for at-home use.

Will I receive a company phone?

Only certain qualified Stripes have the option to request a company-issued phone. Detailed information about Stripe's mobile (cell phone) program will be available to you once you start.

For accessing your Stripe accounts on your personal device, compatible devices are:

- iPhones running iOS 17 or newer
- Google Pixels running Android 14 or newer
- Samsung Galaxy S22, Z Flip 4, and Z Fold 4 running Android 14 or newer
- Other Android devices are NOT supported.

While you wait:

Please think of a **memorable** password to use on your first day. **We recommend the 4-dictionary word method:**

example-presents-itself-here.

- Passwords must be at least 12 characters
- Passwords must not contain your name or username
- Passwords must not contain the word "password"

I have a question that isn't answered here.

- If this concerns the IT Onboarding task or IT/account topics, please [send us an email](#) with your region (AMER, EMEA, APAC) in the subject line.
- For other onboarding information, please refer to [Getting Started at Stripe](#).
- IT does not administer Workday. For questions regarding Workday access itself (e.g. login) or any other tasks within Workday, please contact peoplesupport@stripe.com.

Shipping - General:

For those who are NOT attending Stripe 101 Live

I'm relocating / traveling and don't have a stable address. What should I provide?

Please carefully note the following:

1. See regional information below on when to expect your laptop.
2. Submit the best address you currently have for receiving the laptop shipment.
3. If anything changes or if you need to provide additional details, keep us updated ASAP. Please remember to include your region in the subject line.
4. **See additional information below based on your region.**
 - a. **For AMER, we recommend choosing a FedEx hold location.**

What comes with my laptop?

Along with your laptop, you will receive:

- a [2FA security key](#) by Yubico

The security key will already be plugged into your laptop.

Can my laptop be shipped earlier?

See regional information below on when to expect your laptop. As we need to prioritize immediate start classes, we generally are unable to accommodate special requests for early shipping. Early shipping may also result in your receiving a laptop that is out of date by the time you start at Stripe, so we would like to avoid this if possible.

What if I don't receive my laptop in time for Day 1 Onboarding?

If you anticipate that you won't receive your laptop in time due to transit delays, missed delivery, etc., please reach out to the Onboarding Team ASAP by emailing peoplesupport@stripe.com. They'll be able to provide you with "no-laptop resources".

I received my laptop. How do I sign in?

Your laptop log-in information and password will be provided during IT Spin Up on your first day.

Please see the below for additional region-specific information regarding shipping.

Shipping - Region Specific:

For those who are NOT attending Stripe 101 Live

[AMER \(North, Central and South America\)](#)

[APAC \(Asia Pacific\)](#)

[EMEA \(Europe, Middle East, and Africa\)](#)

AMER (North, Central and South America)

For those who are NOT attending Stripe 101 Live

How will I receive my laptop?

Your laptop will be shipped via FedEx Express. Someone (yourself, a trusted person, etc.) will need to be present to sign for the delivery. **You can also have your laptop shipped to a FedEx hold location (fedex.com/locate; select the “hold at location” service). See additional information below.**

**Please note that FedEx cannot deliver to P.O. Boxes unless you have paid for premium P.O. Box service.*

You will receive automated FedEx notifications via email throughout the entire shipment transit process. Please be sure to check your spam folder as well.

When will I receive my laptop?

This is dependent on when IT is notified of your exception to Stripe 101 Live, and when we receive your shipping information.

It is also possible that your laptop may experience shipping delays out of our control, especially if you are not in the United States or if you are joining Stripe around the holiday season (November/December). If your laptop is delayed, please contact FedEx for status updates.

If you will not have a stable address for the full week before your start date, we recommend shipping to a FedEx hold location (please choose one open on weekends/early Monday) in the city where you will be the day of your start date. Provide the FedEx location’s address as your delivery address, and include the name of the location.

I won’t be home to receive the delivery. What are my options?

Anyone at the address can sign for the delivery. If no one is available to receive the delivery, FedEx will re-attempt delivery on the next business day. You may also have the option to pick up the package from a FedEx facility that evening.

**If delivery is attempted and missed 3 times, FedEx will only hold the package for 2 business days.*

You can also call FedEx at **1-800-463-3339** to have the package held for pickup at a later date.

If you choose to have your laptop shipped directly to a FedEx hold location, **please provide the FedEx location’s address as your delivery address**. This way, the address listed on your ID (for pickup) will be irrelevant. FedEx will hold the package for 5 business days.

How can I pick up my package from a FedEx location?

This is a great option to ensure that you don't miss delivery of your laptop. If your laptop is already in transit, you can call FedEx at **1-800-463-3339** to redirect the package to an authorized FedEx location. You will need your tracking number which is included in the initial email from FedEx. **A government-issued photo ID with a matching address is required for pickup.** The name will not have to match. See details on FedEx's website: <https://www.fedex.com/en-us/shipping/hold-at-location.html>

**Please note that these requests may take up to 24 hours to process.*

My laptop has already shipped. Can I change the delivery address?

The short answer is no.

You may redirect the shipment to a nearby authorized FedEx location, but the recipient cannot change the delivery address.

**Please note, you cannot redirect your shipment to a FedEx location in a different city or state.*

If you cannot pick up at a FedEx location and need the laptop delivered to a completely different address, please contact it-onboarding@stripe.com ASAP. Stripe's shipping team will reach out to FedEx on your behalf, but there are no guarantees.

**If your shipment is already in transit, FedEx may take up to 24 hours to process the request and your shipment will likely be delayed.*

Help! My shipment is stuck!

Please call FedEx at 1-800-463-3339 (or your local FedEx customer service number if outside the US/Canada) to get updates on the situation and find out what the blocker may be before emailing us.

[What if I don't receive my laptop in time for Day 1 Onboarding?](#)

APAC (Asia Pacific)

For those who are NOT attending Stripe 101 Live

How will I receive my laptop?

Singapore:

Your laptop will be shipped via uParcel. Someone (yourself, a trusted person, etc.) will need to be present to sign for the delivery.

**Please note that uParcel cannot deliver to P.O. Boxes.*

You will receive an SMS notification along the entire process. If you have not received a notification on Friday before your start date, please let us know.

Other APAC:

Your laptop will be shipped via DHL or FedEx Express. Someone (yourself, a roommate, etc.) will need to be present to sign for the delivery.

**Please note that DHL/FedEx cannot deliver to P.O. Boxes.*

You will receive automated DHL/FedEx notifications along the entire process. If you have not received a tracking number by the Thursday before your start date, please let us know.

When will I receive my laptop?

You will most likely receive your laptop between Wednesday and Friday the week before your start date. It is possible that your laptop may experience shipping delays out of our control, especially if you are joining Stripe around the holiday season in November/December.

For India. Shipping may take up to 4-12 days from the date of shipping depending on your PIN code.

I won't be home to receive the delivery. What are my options?

Anyone at the address can sign for the delivery. If no one is available to receive the delivery, DHL/FedEx/uParcel will reattempt delivery on the next business day.

My laptop is shipping to India, what do I need to know?

Customs in India require the recipient to provide additional documentation before your package can be delivered. Each situation is different, but you will be contacted by DHL/FedEx to provide the necessary documentation. When you reply to DHL/FedEx, please CC: it-onboarding@stripe.com as well.

If you're from the Bangalore SDC team, you will start in the office on day 1 and will be able to pick-up your laptop from the Bangalore office.

EMEA (Europe, Middle East, and Africa)

For those who are NOT attending Stripe 101 Live

How will I receive my laptop?

Dublin:

Your laptop will be shipped via Wheels We Deliver. Someone (yourself, a trusted person, etc.) will need to be present for delivery.

We ship laptops the week before your start date. You will not receive notifications, as they ship and deliver same day. If you have not received your laptop by Friday before your start date, please let us know ASAP.

Other EMEA:

Your laptop will be shipped via DHL. Someone (yourself, a trusted person, etc.) will need to be present for the delivery.

We ship laptops the week before your start date. You will not receive notifications of your shipment. If you have not received your laptop by Thursday before your start date, please let us know.

When will I receive my laptop?

Dublin:

You will most likely receive your laptop between Tuesday and Thursday the week before your start date.

Other EMEA:

You will most likely receive your laptop between Wednesday and Friday the week before your start date.

I won't be home to receive the delivery. What are my options?

Anyone at the address can sign for the delivery. If no one is available to receive the delivery, Wheels/DHL will reattempt delivery on the next business day. IT will be notified of a failed delivery and will reach out to you to rearrange if needed.
